CONTENTS: CORE

1  HUMAN FACTORS AND ERGONOMICS
   1.1a Anthropometrics
   1.1b Psychological factors
   1.1c Physiological factors

Sample questions

2  RESOURCE MANAGEMENT & SUSTAINABLE PRODUCTION
   2.1 Resources & reserves
   2.2 Waste mitigation strategies
   2.3 Energy utilisation, storage & distribution
   2.4 Clean technology
   2.5 Green design
   2.6 Eco-design

Sample questions

3  MODELLING
   3.1 Conceptual modelling
   3.2 Graphical modelling
   3.3 Physical modelling
   3.4 Computer aided design (CAD)
   3.5 Rapid prototyping
   Case study: Fender – 3-D printing

Sample questions

4  RAW MATERIALS TO FINAL PRODUCTION
   4.1 Properties of materials
   4.2a Metals and metallic alloys
   4.2b Timber
   4.2c Glass
   4.2d Plastics
   4.2e Textiles
   4.2f Composites
   4.3 Scales of production
   4.4 Manufacturing processes
   4.5 Production systems
   4.6 Robots in automated production
   Case study: Materials and design testing

Sample questions
## CONTENTS: CORE

### 5 INNOVATION AND DESIGN

- 5.1 Invention
- 5.2 Innovation
- 5.3 Strategies for innovation
- 5.4 Stakeholders in invention and innovation
- 5.5 Product life cycle
- 5.6 Rogers' characteristics of innovation and consumers
- 5.7 Innovation, design and marketing specifications

**Sample questions**

**Case study:** Lunken’s Peggy—An unsuccessful innovation

### 6 CLASSIC DESIGN

- 6.1 Characteristics of classic design
- 6.2 Classic design, function and form

**Sample questions**

## CONTENTS: ADVANCED HIGHER LEVEL

### 7 INNOVATION AND DESIGN

- 7.1 User-centred design
- 7.2 Usability
- 7.3 Strategies for research
- 7.4 Strategies for user-centred design
- 7.5 Beyond usability—designing for pleasure and emotion

**Sample questions**

### 8 SUSTAINABILITY

- 8.1 Sustainable development
- 8.2 Sustainable consumption
- 8.3 Sustainable design
- 8.4 Sustainable innovation

**Sample questions**
CONTENTS: ADVANCED HIGHER LEVEL

9 INNOVATION AND MARKETS

9.1 Corporate strategies
9.2 Market sectors and segments
9.3 Marketing mix
9.4 Market research
9.5 Branding
Sample questions

10 COMMERCIAL PRODUCTION

10.1 JIT and JIC
10.2 Lean production
10.3 Computer integrated manufacturing (CIM)
10.4 Quality management
10.5 Economic viability
Case study: Henkel – quality assurance
Sample questions
